

ICE - CAST BRONZE DOUBLE MIRROR #1

'Ice Casting' is an experimental process developed by Steven Haulenbeek that applies lost-wax casting processes to the abundance of snow in the Chicago winter to create uniquely textured objects and furniture cast in bronze.

Made in Chicago.

Material: Cast Bronze, Mirrored Glass

Finishes: Dark Bronze (shown), Antique Bronze, Silver Nitrate, Satin Bronze

Dimensions: 26" W x 2" D x 18" H

Availability: Unique

Custom dimensions are available upon consultation with the studio.
