

RBS Barnacle Vessel #1

The Resin-Bonded Sand series (RBS) was conceived through working in foundry is entirely unique, created using a subtractive process; after a block has been carved, shaped & textured, resin is applied to the form, seeping into its outer layers. Once cured, a process of excavation separates the uncured sand from the sculpted form, to reveal a hard-shelled object.

Made in Chicago

Material: Sand, Resin

Dimensions: 8.5" x 8" x 16"

Availability: Unique

Custom dimensions & colors are available upon consultation with the studio.
