

ICE - CAST BRONZE SIDE TABLE #4

'Ice Casting' is an experimental process developed by Steven Haulenbeek that applies lost-wax casting processes to the abundance of snow in the Chicago winter to create uniquely textured objects and furniture cast in bronze.

Made in Chicago.

Material: Cast Bronze

Finishes: Dark Bronze, Antique Bronze (shown), Silver Nitrate, Satin Bronze

Dimensions: 18" x 10.5" x 21"

Availability: Unique

Custom dimensions are available upon consultation with the studio.
